

**HARYANA VIDHAN SABHA**

**Un-Starred Question**

**To be asked at a meeting of the Haryana Vidhan Sabha to be held on  
Friday, the 6<sup>th</sup> September, 2013.**

-----

**Level of Salt and Alkali in the Underground Water**

- 511. SH. ABHAY SINGH CHAUTALA, M.L.A. :**Will the Public Health Engineering Minister be pleased to state :-
- a) whether it is a fact that the salt and alkali were found in underground water in excess than the permissible limits in Hisar, Jind, Faridabad, Rohtak, Mewat, Rewari and other Districts as per report of the Central Salinity Salt Research Institute; if so, the details of the action taken to check this problem, to spread awareness among the Common man in this regard and to provide potable drinking water;
  - b) whether any arrangements/scheme has been made to recycle and water harvesting of the rain water and the water used in the houses in villages and cities for raising the level of under ground water; if so, the details thereof ; and
  - c) whether there is any proposal for supplying potable drinking water either by installing RO System or otherwise in the Water works in the aforesaid Districts in order to check the adverse effects of salt, Sodium Chloride, Magnesium, Calcium and Sodium Fluoride present in the water ?
