

Status of Boosters

***118. Smt. SeemaTrikha, M.L.A.:** Will the Urban Local Bodies Minister pleased to state-

- (a) the status of boosters installed by NBCC and Municipal Corporation in Badkhaltogetherwith the number of boosters which are not functional; and
- (b) whether any special arrangements have been made by the Government to supply water in the upcoming summer season togetherwith the details thereof ?

ANIL VIJ, URBAN LOCAL BODIES MINISTER

Sir, a statement is laid on the Table of House.

Statement in Starred Assembly Question No. 118, February 2020

Sir, there are 17 Boosting stations installed by Municipal Corporation Faridabad in Badkhal constituency. Out of these, 13 Boosting stationsare operational and two boosting stations at MewlaMaharajpurand in village Lakkarpurare under construction. One Boosting station in Sector – 41 stands completed but is yet to be commissioned due to non-completion of Group Housing Society. One boosting stationat Sector-48 is not in use due to insufficient supply of water from Ranney well and presently, the water is being supplied from the old boosting station in Sector - 48.

To augment the supply of water in the upcoming summer season 12 new tubewells have been installed in Dadasia area and the work of connecting of the same to main water supply system is in tendering process. Three ther tube wells are being connected to line number 4 which will supply water to Sector-48 boosting station.
